*«We believe in Switzerland as a business location – and are
committed to it – also in the future.»*

WE BURN RUBBER

Moulded rubber parts need to be very well thought-out to the tiniest detail. Even minimal deviations influence the final product..

This is what you can expect from us:

- Individual development of your moulded rubber parts
- Optimal realisation thanks to our own tool making
- Precise manufacturing with state of the art machines
- High end products on which you can rely

QUALITY

We supply products characterized by a long service life.

Therefore, quality is our highest priority. With us, you can rely on:

- State of the art machine park
- Certified quality management system ISO 9001/14001 and possibility to comply with other standards
- Comprehensive test procedures

DIGITAL

Throughout the whole project workflow, we co-operate with you in a transparent and efficient way and Provide a common digital project platform for the project management and the storage of project documents.
