

# KUBO GROUP

With passion for the detail.

150'000

Articles in our product range

2 million

Gaskets produced / year

40'000

Orders delivered / year

Over

50 million

Parts sold / year

Kubo Tech AG  
Effretikon, Switzerland

Kubo Tech GesmbH  
Steyregg, Austria

Southern Germany

A company of the Polygena Group

## INDUSTRIES

Food & Beverage

Water

Pharmaceutical

Energy

Chemical

Transport

Medical

Machinery

Watchmaking

Building

## PRODUCT RANGE

## WHY KUBO

### SEALING SOLUTIONS

### STANDARD PRODUCTS AND CUSTOMIZED SOLUTIONS

### JOINT DEVELOPMENT

- Optimization of component construction
- Development of efficient production methods
- Own tool making
- Calculation of springs and spring systems

### LOGISTICS

- More than 200'000 articles in stock
- Consignment warehouse processing
- VMI
- EDI

### QUALITY ASSURANCE

- Modern machinery
- Certified management system
- Comprehensive testing procedures

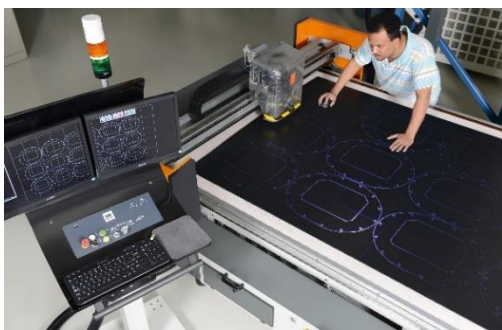

# IN-HOUSE PRODUCTION

## BESPOKE & STANDARD PRODUCTS

- Gaskets
- Turned seals
- FFPM O-rings
- Component assembly
- Lip seals
- Membranes
- Elastomer moulded parts

## MACHINERY / TOOL MAKING

- Punching, cutting, milling and lathe machines
- In-house toolmaking for moulded parts
- Compression and injection moulding machines
- Large stock of gasketing materials
- Wide range of processible compounds

# QUALITY ASSURANCE

Certified according to ISO 9001:2015 and ISO 14001:2015

Comprehensive standard checks for incoming and outgoing goods or up to 100% customized quality checks

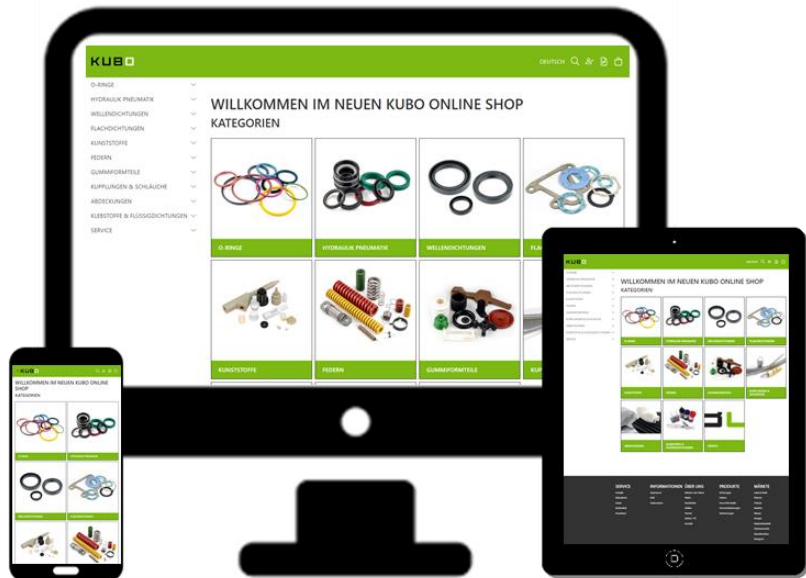

Issuing of needs-oriented customized test reports

State of the art measuring systems

# ONLINE SHOP

Pleasant shopping experience - on your desktop or on your mobile device

Customer portal

- Overview of all your orders - also those which have not been placed in the online shop
- Modification of delivery addresses

Requests for quotations directly in the shop

Improved search functions and detailed filter options

Quick overview of product information

Direct document download

Search and order all products including your specific articles

Check real time availability

Economic purchase of small quantities (no minimum order surcharge)

# MOULDED ELASTOMER PARTS

## TECHNICAL MEMBRANES

- For sensors, valves, expansion parts, switches, handling parts etc.
- Multilayer membranes

## MICRO-PARTS

- For medical parts, sensors, electronical devices and micro-mechanical products
- precision parts in the smallest dimensions

## COMPOSITE PARTS

- For vibration damping, sealing, flexible coupling, grip, isolation, protection and design
- Vulcanisations on glass, metal or synthetic materials

## ARMOURS

- For optical devices, shells for switches, battery cases, medical devices
- When both aesthetics and haptics are essential

# GASKETS AND SEALS

## O-RINGS

- Precision O-rings and round cords
- NBR, EPDM, MVQ, FPM, FFPM, metal etc.
- FEP-, PFA-enveloped
- All designs (O, C, D, X, L, spring mounted)

## GASKETS

- Synthetic materials, Gylon® by Garlock®, composite materials, graphite, metal-graphite etc.
- Cork, rubber, PTFE, oil paper, elastomers, etc.
- PTFE thread tapes and flange sealing tapes

## HYDRAULICS AND PNEUMATICS

- For static and dynamic applications
- Standard / customized

## SHAFT AND MECHANICAL SEALS

- Sealing of mobile shafts
- PS-seals / customized

## MACHINED PARTS

- In-house design and manufacturing
- Plastics and elastomers
- Dimensions up to 2'000 mm

## PACKINGS / ISOLATION MATERIALS

- Pre-pressed packing rings
- Pre-finished packing kits

## PROFILES

- Standard / customized
- Inflatable

# MORE PRODUCTS

## SPRINGS

- Standard springs as per DIN
- Customized compression, traction and tool springs

## COUPLING

- Hoses
- Quick couplings
- Stainless steel clamp connections

## PROTECTIVE COVERINGS

- Disk and molerit bellows
- Slide protectors
- Box style bellows

## ADHESIVES

- Sealing, securing and protection of metal threads and pipes
- Easy fitting, cleaning and removal
